

PHANTOM MONARCHS

Product Sheet

The background of the entire page is a dark, moody illustration. It features several anime-style characters. In the upper right, a character with long, light-colored hair and a crown-like headpiece is visible. In the lower left, a character with dark hair and a hooded cloak is shown. The central focus is the title 'PHANTOM MONARCHS' in a large, ornate, purple and white gothic-style font. Above the title is a crown with a cross on top, and below it is a decorative, symmetrical emblem. The overall atmosphere is mysterious and dark, with a color palette dominated by purples, greys, and dark blues.

PHANTOM MONARCHS

The World Now

Whispers spread across Wonderland: A new species has begun wreaking havoc in the Foret des Champignons. No one knows where these so-called “Lost” have come from, though many claim they bear an uncanny resemblance to familiar creatures. The Queen of Hearts insists the Coeurs have the matter under control, but the rumors persist as strange happenings have plagued the realm since talk of a parallel world began.

On the other side of the Looking Glass, unrest brews just the same. Citizens have begun to remember fragments of lives they had long forgotten—memories that suggest not everyone in the Tricastles is truly from Lucenia. Yet these returning echoes bring no answers, only deeper uncertainty.

With both worlds teetering on the edge and the shadow of the Jabberwock drawing near, Underland’s guardians must step in and pray that these otherworlders can wield the Vorpall Sword before the worlds unravel beyond repair.

Conflict

When the Duchess invites Diana and Ciel to a tea party, both are wary, but neither expects to find their own mirror reflections seated across the table. Diana is no stranger to her Umbra self, but Ciel struggles to confront a version of himself that seems to know his every hidden thought and intention. Though the Champions are ultimately forced to retreat, they strike a truce with the Duchess who explains the reflections of Underland and the whereabouts of the Golden Queen. Ciel uses the truce with the Duchess to target the Queen of Hearts, who appears to be holding Alice hostage. Meanwhile Diana is suddenly teleported back to Lucenia while consulting the Cheshire Cat in hopes of finding the truth of what is happening in Underland. With the help of the Duchess and her friends, Ciel defeats the Queen of Hearts—only to discover that the Alice they had been searching for is no more. In her place remains only the Lost Queen.
